Where Our Residents Have Been!

Gynecology

Dr. Ramirez, M.D.

PGY3 Resident Physician

It was 6:30 am on a Monday and I was ready to go to the OR. There was laughing in the hallway and in comes Dr. Nwachuku with lots of energy and ready to start the day. Monday's were good learning for procedures and remembering anatomy. I was always ready for procedures. All of the good and exciting stuff about gynecology came together in the operating room. Tuesday's were for full clinic where anything goes; complicated and normal prenatal care, menopause, family planning and post-operation recoveries. I was very happy to spend time with Dr. Nwachuku. He took the time to teach me procedures and he gave mini lectures about contraception, management of pregnancy in preeclampsia, gestational DM and much more. He is always a very energetic provider that cares for his patients. Thank you so much! It was great! - Magda

Inpatient Service/ Anesthesia/ Emergency Medicine

Dr. Ferguson, M.D.

PGY2 Resident Physician

One of the things I love about being part of the HMS FMRP is the flexibility I have when it comes to my elective rotations. Last month, I was able to have a rotation that included shifts in the ER, a week of Anesthesia with the opportunity to work on my intubation skills and a week on the inpatient floor at GRMC revisiting hospital medicine. It was a unique opportunity to work with patients throughout the entire hospital. Thank you to all the attending physicians and support staff at GRMC that took the time to work with and teach and who made this a very exciting month! - Brandon

Pulmonology/ICU/ Radiology

Dr. Patel, M.D.

PGY2 Resident Physician

My most recent rotation was a combination of radiology, pulmonary medicine and ICU. Thank you to Dr. Thomas and Dr. Spar for allowing me to spend time with them. I not only had the opportunity to read and interpret medical imaging (CT scans, MRI, X-rays, Ultrasounds, Nuclear Studies), but I also had the chance to see a variety of interventional radiology procedures. For my pulmonary/ICU rotation, I want to thank Dr. Stinar for all the teaching he provided. We would round on ICU patients in the morning and then head to the outpatient pulmonary clinic where we saw patients with chronic and end-stage COPD, sleep difficulties, and lung cancer. All in all, I had a great experience integrating these two disciplines and look to apply what I have learned. - Neel

Resident Roster

Class of 2017

Magda Ramirez, MD

Class of 2018

Brandon Ferguson, MD

Neel Patel, MD

Class of 2019

Susan Bauer, DO

Mario Campos, MD

In Training at MMC

Night Float

Susan Bauer, D.O.

PGY1 Resident Physician, In Training at MMC

My last rotation was night float. I was able to see interesting cases in our emergency department including oleander poisoning. While incredibly common, the plant is very toxic and can cause cardiac arrhythmias. I finished four weeks of nights and two weeks of hospital rounding. It was a very interesting month at MMC Hospital! - Susan

Inpatient Family Medicine

Mario Campos, M.D.

PGY1 Resident Physician, In Training at MMC

I spent block 8 on the inpatient family medicine service at MMC in Las Cruces. This was my 3rd time working on the inpatient service and I am really starting to become more comfortable with complicated patients and handling more cases on my own. I was fortunate enough to work with 2 outstanding seniors: Dr. Escalante and Dr. Oushy on the service and both were very helpful and knowledgeable. It was definitely a busy month but I have learned so much from the staff and other residents while on the rotation. Next I'm on Pediatrics at UNM that is going to be another interesting and challenging month! - Mario

Program Director- Darrick P. Nelson, M.D. Associate Program Director- Kristin Diaz-Rios, M.D. Core Faculty- Virginia Hernandez, M.D.
Program Coordinator- Jade Zamora Program Assistant- Amanda Castillo
